

PIID Buildings & Land Improvements Trustee's Report January 2023

PIID Meeting – January 31, 2023

- **Infrastructure Update**
 - Nordic Fence will be working on Compound Ramp Gate at some point before the spring.
 - New lighting control system is being installed at the Firehall. Lights will be controlled via sensor. Huge thank you to Bruce Mallory for donating time and equipment. Another great step towards reducing our energy consumption. Installation is expected to be completed in the coming few weeks.

- **Road Committee & Road Status**
 - No road closure or limitations have been set to date.
 - The Road Committee met with Owen Page on January 3rd, 2023 to tour the road, discuss short term and long term strategies as well as discuss options to remediate bank erosion across #70.
 - Next steps include:
 - Follow up with MOTI to engage with material contractor to schedule gravel load delivery and discuss planning
 - MOTI to provide engineering support for bank erosion remediation.

- **EV Charging Committee** – EV Report is being drafted and will be presented to the Trustees for consideration at a future meeting
