

PIID Buildings & Land Improvements Trustee's Report September 2023

PIID Meeting – September 26, 2023

The summer went smoothly on all accounts and a short summary of current initiatives is provided below.

- **Infrastructure Update**
 - Nordic Fence completed the welding on the ramp gate this summer. This completes the compound project as defined. As requested at a previous meeting, a final report will be provided including the final cost of the upgrades.
 - Painting on the old firehall lean-to extension was completed.
 - Planning for work on the south reservoir outlet is underway.
 - The EV Committee has been working on finalizing a recommendation report for the Trustees to consider. This is anticipated to be presented at the next PIID meeting.
- **Road Committee & Road Status Road Committee & Road Status**
 - Monday Morning Crew has been filling in potholes using the road millings. So far, this seems to be performing as expected. The Road Committee will assess next steps with MOTI in the new year.
 - Reminder that starting November 1st, a MOTI permit is required to access the road with trucks over 5,000kg GVW. Please refer to the following link to apply for a permit: <https://www.piersisland.ca/road-use.html>
